Case No. GP-301932 (2760/39)  
Serial No.: 10/001,941  
Filed: November 30, 2001  
Page 2 of 20

**SPECIFICATION AMENDMENTS**

Please amend the paragraph beginning on page 3, line 1 as follows:

"Upon an answering of the call forwarding rings, the vehicle phone 40 provides fake rings for the subscriber as well as associated ring back tones for the caller. As such, the subscriber (or another user) can answer the fake rings if present within the vehicle 41. A drawback to the prior art scenario is the termination of the call state by the call forwarding module 21 during stage S68 prohibits the call forwarding module 40 from transferring the voice call to voice mail module 22 upon a failure of the subscriber (or another ~~uses~~ user) to answer the fake rings. The present invention addresses this drawback."
